## About Us

The demand for electronic items has rapidly increased over the past few decades in India, and there are several factors responsible for this, such as population growth, government initiatives like Digital India, rising disposable income, and changing lifestyles. To meet the growing demand for electronic items among the masses, our company, Solar Electronics, entered this domain in 1989. With over 34 years of massive industry experience and in-depth knowledge, the organization currently stands as a leading manufacturer and supplier in the market. The company develops technologically advanced Metal Ice Air Cooler, Commercial Star Air Cooler, LED TV, Set Top Box, Washing Machine, etc.

We develop our products from the latest components and parts that enhance their performance, work efficiency, and durability. Further, our electronic items are easy to operate and can be easily installed in homes, offices, resorts, hospitals, and other places. In different sizes and models, we are producing the electronic items to meet the diverse requirements of our customers. Our modern production facilities also allow us to customize the products as per the specific demands of our clients. Due to our untiring efforts, we have today achieved a strong foothold in the Indian electronic industry.
